PRESENTATIONS
by

Energy Inventory • SEAN MCGINNIS, PH.D., VIRGINIA TECH

Dr. Sean McGinnis directs the Virginia Tech Green Engineering Program, teaching students of the environmental impact in all life-cycle phases of products, processes, and systems. He is also a research scientist in Materials Science and Engineering and Biological Systems Engineering with the Consortium for Research and Education on Energy Efficiency (CREEE).

Saving Energy in the Home • BILLY WEITZENFELD, AECF

Billy Weitzenfeld is Executive Director of the Association of Energy Conservation Professionals (AECF), a non-profit energy education and advocacy organization. He served as weatherization director for New River Community Action for 10 years, a certified home energy rater, and has extensive experience in weatherization, energy education and training.

cafe² Program • GREGG LEWIS, CAFE²

Gregg Lewis is the Executive Director of the community alliance for energy efficiency (cafe²). With a Master of Architecture from Yale University, he completed the region's first LEED Gold Certified building and was named one of 25 National Environmental Champions by EnvironDesign magazine in 2005. Gregg is also a certified EarthCraft builder.

Weatherization Program • BILL BEACHY, CHP

Bill Beachy is the Vice President of Energy Services with Community Housing Partners. He has been involved in the Low-Income Weatherization Assistance Program since 1976 on the local and state level, served on numerous national program policy committees and provided training and education at state, regional and national conferences.
