

Amazing AmeriCorps Members

Along with the weather, the fall season brings another major change to some CHP neighborhoods. Every October, a new class of AmeriCorps State members start work at a number of our communities. This year, we welcome 15 new members to CHP properties across the state. AmeriCorps members serve for a full year and are required to serve 1,700 hours of service. Members will be providing tutoring, financial literacy, computer literacy, and service learning education to residents throughout the year. The newest group of AmeriCorps State members have already kicked off their year of service by attending a week-long orientation and training at Maymont Park in Richmond, Virginia.

We gladly welcome the following members for the 2010 - 2011 program year:
