AmeriCorps Members Committed to Service

Along with the weather, the fall season brings another major change to some CHP neighborhoods. Every October, a new class of AmeriCorps State members start work at a number of our communities. This year, we welcomed 19 new members to CHP properties across Virginia. AmeriCorps members commit to serve for a full year and perform 1,700 hours of service at their host site. Their scope of work includes providing tutoring, financial literacy, computer literacy, and service learning education to residents throughout the year.

We gladly welcome the 2010 - 2011 members listed below with their respective service community:
